***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Pat. No. 3,685,920. The improvements are the links are pivotally mounted on the ends of the radial fingers carried by the semicircular elements and by the bridges of the control ring, wherein the fingers carried by the semicircular elements extend radially outwards from the elements, and the fingers carried by the bridges extend radially inwards from the bridges so that the pivot points of the links on the fingers are at the same distance from the pivot axis of the control ring both for the radial fingers carried by the semicircular elements and for the radial fingers carried by the bridges of the control ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Prior Art***

The prior art made of record but not relied upon is considered pertinent to applicant's disclosure and consists of 2 patents.

Bontier et al. (4,773,821) and Matheny et al. (5,601,401) are cited to show different control rings for variable inlet guide vanes.

Art Unit: 3745
